

## ONC Certified EHR & Practice Management Software

**Leading the ophthalmology industry for more than 28 years, Compulink knows how to provide you with better clinical outcomes and better financial results. That's why more than 4,000 ophthalmic practices rely on Advantage as the industry standard for EHR solutions.**

*We are fully CCHIT and ONC certified for Meaningful Use, and compliant with all of the American Academy of Ophthalmology's special EHR requirements. Advantage is integrated and fully customizable to your way of working, allowing for increased efficiency and profitability with the most functional and comprehensive solutions in the industry.*

*Partner with Compulink and get more than just software. We provide the industry's best training, support, and service. Our knowledgeable EHR and practice automation experts are by your side providing the responsive, personalized support you need to be successful.*

## The Compulink Difference

- ✓ **We adapt to your workflow**  
Screens, reports, work flows—all can be tailored to meet your exact needs.
- ✓ **Intuitive, easy to use, efficient**  
Document quickly with our simple point and click interface. Enter data using an iPad, touch screen or voice. Boost your productivity with special time-saving features including fingerprint login.
- ✓ **Deep ophthalmic knowledge**  
Advantage guides you with its extensive database of eye care diagnoses, histories, ocular structures, orders, treatment plans and surgical procedures.
- ✓ **Comprehensive workflow automation**  
From your website to front office, exam lanes to your optical shop, billing department and surgical center—Advantage streamlines your workflow, saving you time and increasing profitability.
- ✓ **Image management**  
Over 150 ophthalmic equipment interfaces automatically import information directly into Advantage where our standards-based (DICOM) image management system allows you to quickly view, manipulate and interpret all of your patients' diagnostic images.
- ✓ **Intuitive Drawing Tool**  
Document quickly with Advantage's easy-to-use drawing tool, or use pre-created diagnostic "stamps".
- ✓ **Cloud-based**  
Access Advantage over the web using our fully HIPAA compliant, secure cloud solution. Or install it on premise at your practice.
- ✓ **Training & Support**  
Our responsive, knowledgeable support and training team is by your side every step of the way to ensure your EHR success.

*The EHR and Practice Management partner  
eyecare practices have trusted for over 28 years*
